Programme Development Manager & Operations Manager
Concordis International
Submitted via email to hr@concordis.international

Dear Hiring Team,

I am writing to express my strong interest in the **Programme Intern** position at Concordis International. I am available to start at the **end of September or beginning of October 2026**, and I am eager to contribute to your mission of fostering lasting peace and economic development in communities affected by armed conflict.

WHY CONCORDIS INTERNATIONAL & CAREER DEVELOPMENT

I am deeply inspired by Concordis’s commitment to transformational justice and your inclusive, impartial approach to peacebuilding. The opportunity to work on programmes in regions such as the Central African Republic and the Sudans resonates with my desire to apply my analytical skills to meaningful global challenges. In the future, I hope to develop my career at the intersection of technology and international development, specifically focusing on monitoring, evaluation, and data-driven programme management within the peacebuilding sector.

SKILLS, EXPERIENCE & IT PROFICIENCY

As an ICT Officer and Python Developer, I bring robust capabilities in data analysis, research, and systems management that directly align with the needs of your programme teams. In my current role, I developed a real-time security monitoring dashboard, a skill directly transferable to managing the security monitoring rota for in-field staff. I am highly experienced in setting up digital data collection systems and analyzing complex datasets to generate actionable reports.

Regarding your specific IT requirements, I am highly proficient in **Excel** and **Python** for data automation and analysis. I am skilled in **PowerBI** for creating visual data reports and have practical experience with **QGIS** for spatial data mapping. Furthermore, my technical background enables me to quickly master and deploy mobile data collection tools like **Kobo Collect** for field research.

LANGUAGE PROFICIENCY

I possess professional proficiency in **Swahili**, which is my primary language of work and education. I also have a strong working proficiency in **English**, allowing me to effectively engage with diverse

stakeholders, conduct media reviews, and translate peacebuilding materials. I currently hold a basic understanding of **Spanish** and am highly motivated to improve my fluency to support your operations in Chad and Sudan.

COMBINING TIME COMMITMENTS

I am currently unemployed as an ICT Officer and completing my degree. The flexible, remote nature of this internship (minimum three days per week) aligns perfectly with my schedule. I plan to dedicate specific weekdays and weekend hours to Concordis, ensuring I meet the required time commitment and remain fully responsive to the team while maintaining my professional and academic responsibilities.

Thank you for considering my application. I have attached my two-page CV for your review and look forward to the possibility of discussing how my technical and analytical skills can support Concordis's vital work.

Sincerely,

Mbogo Kategile Zabron
